THeſpiades Muſæ tumido quæ carbaſa fertis
Tuta ſalo doctis undiq; plena viris.
Dicite Phœbe fave: Iuvenes quoq;, tempora quorum
Vtraq; perpetuâ Daphnide vincta nitent.
Ferte mihi facileìs conamina veſtra canenti
Aures, & dictis quæſo favete meis.
Prô Logici Iuvenes pontis queîſnam ſinuoſos
Mæandros animis vos ſuperaſſe putem:
Vix queo verba loqui mecum dum mira voluto
Monſtra viæ, trabicam quæ retinere valent.
In mediis Echeneîs aquis tardare rudentes
Dicitur, & Delphis vertere poſſe ratim.
Hìc occurſantes vobis ſub imagine formas,
Dignè quis linguâ, aut dicere mente poteſt?
Obviat imprimis præfracto corde rebellans
Ens Rationis, iners pòſt Genus & Proprium.
Forma frequens ſequitur duplici diſcrimine rerum,
Mox furor Adjuncti bella verenda movet.

Attamen haud reſides vidit vos improba Siren,
Nec dedit eſſe pigros ſedula cura ſuos.
Pectore ſed vigili tumidum mare tranaviſtis,
Quæ res felici numine fulta ſtetit.
Sic non Alcides rabidas exarſit in iras,
Cùm clavâ vires frangeret hydra tuas.
Aut Erymanthæum cùm ferro ſterneret aprum,
Vel cervi Æripidis cornua fracta forent.
Quas Argumentum? quas vel Reſolutio preßit
Atroces valido non ſine Marte feras?
Corpore quadrupedes prægrandi Stymphalides, vel
OEdipodionios dixeris has Satyros.
Inde etiam Medij tentaſtis littora ſigni
Naufraga Gedaco, Fecana cum Cageti.
Barbara Fapeſmo intorquent, duruſq́ue Bocardo
Ceu Maleæ ſcopuli vel Caphareus atrox.
Nunc eat, & celebret quæcunque peregit Iaſon,
Et referat variis monſtra marina modis.
Colchidis Æſonides ope eatq́ue dracone peremto,
Se rapuiſſe crepet nobile vellus ovis.
En majora chori Aonij Phœboq́ue ſacrata
Alite felici, monſtra phalanx domuit.

Aura-

Auratisq́ ſibi cumulavit jam meliores
Velleribus gazas, proſperiore manu.
Non hîc torpeſcit virtus, meminiſſe pericli:
Nec patitur præſens vis adamata boni.
Quare alios Sophiæ quò quærat Cymba receſſus,
Suppara Vulturno panditis intrepidi.
Nec mora Neptunni Triton flat gutture concham,
Nereidum denſat Cymothoëq́ ſtruem.
Gnaviter occurſat nondum limata creatrix
Cunctorum tellus, quod vel olympus habet.
Cauſſa ſubit quadruplex, longi pòſt temporis ætas
Invadit claſſem deſidioſa Quies.
Hinc Spatium, Vacuum, Numeruſq́, Potentia, Caſus,
Terminus hinc Motus, Regnáverenda Loci.
En tempeſtates! En Acroceraunia quanta
Cogitur in ſtudiis gens ſtudioſa pati!
Optatam donec Zephyro ſpirante Liburna
Pertingat placidè non ſine laude plagam.
Quid fera monſtra feram; latùm per inane Dracones
Ignivomos, Tremulas quid referámve Capras?
Prætereo Methecora lubens, Sphæraſq́ polorum
Mirificas, dirus quidve Cometa ferat.

Quid ſibi ventorum flatus quid Fulmen & Ægle.
Quaſſus humi reſonans, quid ſibi Grando velit,
Quid Glacies, Haloq; notet, quid diſcolor Iris;
Imber quid pluvius, quidve Pruina Nives.
Vos bene viciſtis cuncta hæc, cataphractaq; corda
Pegaſeo fertis plena liquore domum.
O mea ſi quid metra valent, ſunt prælia tanta
Digna Cedro, Tyrio, Murice digna ſatis.
Phyneades volucres Calaim Zetumq; fugantes
Ad Strophadas fratres, quid modò fama refers?
Tentant hi Iuvenes majora hos didita virtus
Fama volans vitâ vult ſine fine frui.
Maſcula ſed virtus quò non penetravit? in iſtis
Interitus Ortus, avia regna Sali.
Atq; hinc præclaras, longi quas temporis ætas
Perdere non potis eſt, vos retuliſtis opes.
Gaudia quapropter docta digniſſima mente
Concipe cara cohors, meta laboris adeſt.
Æquor viciſti Sophicum, Sapientia cingit
Tempora Apollineâ fronde Magiſterii.
Gaude iterum gaude, non hìc deſiſtito at ultra
Vt decet infracto plus animo penetra.
